MEMORANDUM FOR: Project Director of Administration

SUBJECT : Personnel Requirements for Test Site Following
Deployment of Base C

1. I have had the assistance of the various Section Heads in making the attached estimate of personnel required at the Test Site following deployment of Base C and the closing out of the installation. This estimate is based on SAC pulling out shortly after Base C deploys. If the 4070TH is to continue a training program, the personnel needs, of course, will be somewhat altered.

2. It is suggested that the Test Site CO be asked to provide a similar estimate of personnel needs projected from his vantage point. He might be instructed to make several estimates based on (1) no future SAC training to be accomplished and (2) the above situation where closing out the Site is the sole consideration.

3. I also suggest having the various Section Heads review the attached estimate and asking for their comments.
